# Steel Mind, Flex Body

Simple is the best. It is not a slogan. It is our top principle. Listen to yourself, and your body, they will tell you the correct way to build up your physical health. Exercise equipment can produce unnecessary limitations, but at Joong Chenn, we insist the user is the key: thus all exercise equipment should be ease of simple use for the users' action on the equipment and not restrict the user.

Simple is best, therefore we adopt the correct technology for the user in every piece of Steelflex equipment that we design. Because we believe that people's natural function of movement is the best method for their body, Steelflex products do not interfere with this function during the use of our equipment. We provide equipment that is comfortable, safe, and a great exercise experience. Our products not only have an outstanding design, but we are sure once you use them they will bring you an enjoyable experience. Welcome to the Steelflex World!

# Our Company History

- **1980** - Renda Enterprise was found, producing free weight products based on OEM/ODM
- **1983** - Joong Chenn Industry Co., Ltd. was established. Main products are Dumbbells and weight products.
- **1985** - 1985 Started our own brand of weight products "WECK".
- **1991** - Joint venture with BODY SOLID and developing Home Gym and Bench Selling products worldwide via "BODY SOLID" brand.
- **1993** - New factory built in Nantou; main products are Home Gym and Bench.
- **1998** - To supply the complete series of products, developing the cardio products such as treadmill and bicycle. The National Athletic Sports in Taiwan selected JCI as their free weight training equipment.
- **2000** - Body Solid G1S received the award "BEST BUY" from American's consumer reporting magazines.
- **2001** - Second new factory built in Nantou, main production are Home Gym, Treadmill and Bicycle. China factory built in April and mainly produces Home Gym products.
- **2002** - ISO certified and created own brand "STEELFLEX".
- **2003** - Created own brand "Fitnex" and received the award of "It's very well made in Taiwan" and "TSMA award".
- **2004** - Established the new sales department "SBU" in Shanghai.

## · Smart -

High technology and humanity design.

## · Safety -

Strong structure for safety use.

## · Simplicity -

Aesthetically pleasing with ease of use.

# About Steelflex Fitness

People have high expectations for health and mental happiness from exercise. To achieve this goal Joong Chenn established in 1983 with intention to design innovative fitness products for all users. Our products have passed ISO9001, CE and ETL certification. We work towards designing our fitness products with 3 concepts (Simplicity, Safety and Smart) as our main object. We are continuously improving the quality of life for all of our users and this is our motivation.

# Markets We Serve

## Steelflex Service Assurance

Joong Chenn is dedicated to manufacturing the highest quality equipment and will continue to develop innovative and patent-protected products. Steelflex products are sold in more than 100 countries worldwide. Our commitment to our customers is achieved with a confidence in knowing that we will provide the highest satisfaction of service while producing the highest quality of products. The end result is a product designed to improve your health and everyday quality of life.

SPEC

VIDEO

## PT20 Treadmill

Full commercial treadmill PT20 features a user-friendly design of one-touch control. The dot-matrix LED display screen with colorful switch assists exercisers with convenient operation. The shock-proof design of the PT20 provides a low-impact cardio workout also offers more comfort for operators during intense exercise. Every detail of treadmill PT20 is designed with ergonomics, and its heavy-gauge steel construction increases stability.

# P Series - Features

## STEELFLEX FITNESS CARDIO

### Unique Button Design

Using the one-touch keys of speed and elevation provide users to easily operation and highly recognition.

### High Efficient Motor System

Energy saving motor system saves 30% power effectively for better performance.

### Large Running Surface

P Series feature a 2-Ply high density 22" wide belt offer users free and non-slip surface.

### Non End Cap Design

Non-end cap and half-round edge design not only have sleek look but also decrease the chance for injury.

### One-piece Bottom Structure

Integrated bottom frame structure increase product's durability also brings you a different aesthetic experience.

### Low Step-up Height

Low step-up design helps users for easily accessible.

-Console-

SPEC

## PT10 Treadmill

The 4HP ECO-AC servomotor allows for pair operation. The exercise program brought the sense of achievement that causes to conquer workout challenges. The wellness program accommodates operators who require stability. Treadmill PT10 provides a specific reverse function for better recovery from fatigue, and bilateral handrails reassure the exerciser. The one-piece deck promotes the stabilization of machines. A unique design without rear end caps reduces the damage of accessories. The oversized LED monitor with a touch user interface is designed for operation conveniently.

-Console-

SPEC

## PT7 Treadmill

The 5HP AC motor provides ample power source for running. To enhance the stabilization of constructions, the deck adopts a one-piece design. For extending the durability of components, treadmill PT7 is designed without rear end caps. The extra-large monitor with a touch button is easy to operate. A specific cone design of the shock absorber decreases reaction forces for the runner and increases the longevity of accessories.

# C Series - Features

## STEELFLEX FITNESS CARDIO

### Heavy Gauge Steel Frame

Our treadmills feature heavy gauge steel welded frames. The heavy frame construction provides a durable and stable walking or running exercises. Anti-rust frames for whole frames of the treadmill in order to extend products usage life.

### Large Running Surface

C Series feature a 2-Ply high density 22" wide belt offer users free and non-slip surface.

### Powerful Motor System

5.0 HP AC motor provides smooth, consistent power for a total body workout.

### Aluminum Side Rail

The C Series aluminum side rail combined with non-slip design to increases the durability and safety of products.

### Elastic Deck System

Our shock absorption system reduces knee and joint stress, added comfort and lower impact during a workout.

-Console-

## CT1 Treadmill

The top-grade treadmill CT1 presents the principle of the Steelflex that makes the exerciser safely enjoy a workout and protects them against injuries. Heavy-gauge steel construction with the non-slip side rail ensures stability and durability. The extra-large treadmill belt contributes the power evenly for better workout efficiency.

SPEC

# XT Series - Features

## STEELFLEX FITNESS CARDIO

### Large Running Surface

XT Series treadmills feature a 2-Ply high density 22" wide belt offer users free and non-slip surface.

### Elastic Deck System

Our shock absorption system reduces knee and joint stress, added comfort and lower impact during workout.

### High Efficient Motor System

High efficient motor System provides smooth, consistent power for a total body workout.

### Heavy Gauge Steel Frame

Our treadmills feature heavy gauge steel welded frames. The heavy frame construction provides a durable and stable walking or running exercises. Anti-rust frames for whole frames of the treadmill in order to extend products usage life.

### Aluminum Side Rail

The XT Series aluminum side rail combined with non-slip design to increases product's durability and safety.

-Console-

SPEC

## XT 8000A Treadmill

The outstanding 5HP AC motor makes running easier. Bilateral hand bars are designed for speed and gradient adjustment that promotes psychological safety for exercisers. An innovative grain design of the deck enhances the longevity of operation and reduces noise during workouts. Side rails are constructed with aluminum alloy, which emphasizes the standard of the commercial treadmill and exhibits an elegant design. Eight independent monitors with eleven exercise programs provide various workouts for the operator.

-Console-

SPEC

## XT 8000D Treadmill

The outstanding 4HP DC motor with the PWM system makes running easier. Bilateral hand bars are designed for speed and gradient adjustment that promotes psychological safety for exercisers. An innovative grain design of the deck enhances the longevity of operation and reduces noise during workouts. Side rails are constructed with aluminum alloy, which emphasizes the standard of the commercial treadmill and exhibits an elegant design. Eight independent monitors with eleven exercise programs provide various workouts for the operator.

SPEC

## CRSG Recumbent Bike

An innovative design of recumbent bike CRSG provides a steady position and facilitates operators to maintain a correct posture without any fixed accessories. The side stability LED console display allows checking fitness feedback and selecting different sports requirements instantly. A liner-beam engineered seat offers smooth movement when adjusting forward or backward.

-Console-

SPEC

## XB7500S Recumbent Bike

The high-quality recumbent bike XB7500S provides eight programs for cardio workout variations. And a dot-matrix LED console display allows mastering the fitness feedback immediately and conveniently. The adjustable seat mechanism helps exercisers fit in a proper workout position to increase endurance.

# Elliptical - Features

## STEELFLEX FITNESS CARDIO

### Multi-Grip Handlebars

Multi-angle moving handlebars provide comfort and variety training for users.

### Integrated Water Bottle Holder

The water bottle holder large space design can let the users store anything they need during workout.

### Oversized Pedal

Large pedal allows you to adjust your foot position naturally and comfortably.

### Low-impact Pedal

Added low-impact pedal design reduces knee and joints stress and more safety during a workout.

-Console-

SPEC

## PES10 Elliptical

Say hello to the PES10 Elliptical! With its ergonomic stride design, your movement feels smooth and natural, making workouts feel like a breeze. Say goodbye to discomfort and any impact-related worries! Moving the machine? No problem! The handy transport wheel at the front makes it super easy to shift and set up wherever you want. The stride also features a clever suspension system that gives you a super realistic feel with each step, all while reducing friction noise for a quieter, more peaceful workout.

-Console-

SPEC

VIDEO

## PE10 Elliptical

The combination of biomechanics and engineering has created a fluid elliptical motion path. Elliptical PE 10 is a commercial-grade machine built of heavy-gauge steel for maximum stability. Optimal angle LCD console with blue backlit screen displays the massage of time, distance, calories, pulse, level, speed, RPM, and muscles. Multi-position moving handles are designed for different workout requirements and habits to enhance exercise performance. Oversized pedals accommodate any size user and prevent them from missing a step and falling. The stationary grip features contact heart rate sensors with polar telemetry for checking physical condition during intense cardio training. Dual protection handrails make the entry and exit more convenient while improving safety.

-Console-

SPEC

## PESG Elliptical

An electrically controlled resistance with a commercial-grade 400W self-generator power supply design facilitates exercisers to enhance workout efficiency from stepping. The engineering of resistance is in thirty level adjustments. Twenty-three-inches stride setting with versatile handles increases workout effects for the upper limb. Elliptical PESG can optimal interpret movements of cross-training. The oversized front safeguard exhibits the delicate and solid design of the PESG.

-Console-

SPEC

## CESG Elliptical

The commercial-grade elliptical CESG with space-efficient design accommodates a variety of facilities. Oversized, non-slip foot pedals provide comfort also protect exercisers from missing their step during intense workouts. A precision heart rate monitor with a handgrip facilitates measuring the physical condition immediately.

-Console-

SPEC

## XE7400 Elliptical

The XE7400 offers seven independent monitors and eight exercise programs that assist operators in figuring out the selection of workouts. An electrically controlled resistance features a commercial-grade 450W self-generator power supply design. The resistance design is in sixteen level adjustments. Nineteen inches stride setting with the linkage design pedals allows optimum balance and workout performance when activating the cross-training.

# Stepper

STEEFLEX FITNESS CARDIO

-Console-

## PST10 Stepper

The PST10 emulates the realistic climb motion that provides an effective and natural workout for cardiovascular function development. The extra-large handrail with skidproof pedals protects exercisers against any possible slips and falls. The blue backlit LCD screen displays informative workout feedback to help operators master their training process.
