# CLUB LINE Series

## CL2CS

### Chest Press / Shoulder Press

Machine CL2CS provides chest and shoulder presses. Adjustable mechanisms for the backrest enable lifting motions with three different positions. With a pop-pin adjustment, weight stacks and movement arms design meet varying fitness levels and needs. Grip positions in neutral, supinated, and pronated are available for the multi-handle.

SPEC

VIDEO

## CL2FR

### Pec Fly / Rear Deltoid

The CL2FR has a non-slip tread plate, which connects the cable tower and the seat, and offers the operator to stable their feet during flies and rear deltoid workouts. Rotational handles with extended design for convenient use and can alternately strengthen the deltoid and pectoral.

SPEC

VIDEO

## CL2CR

### Chest Press / Back Row

Level up the safety and ensure durability while training, the heavy-gauge steel structure of Steelflex CL2CR better the workouts for chest presses and back rows. Adjustable biomechanical movement arms lead exercisers to a correct posture that enhances workout efforts.

SPEC

VIDEO

## CL2HL

### High / Low Pull

The high-low pulley machine CL2HL allows working out lat pulldowns and rows in a seated position to strengthen the biceps, deltoid, and latissimus dorsi. Simple and compact designs enhance the space capability in fitness facilities so that the members have more areas to work out.

SPEC

VIDEO

## CL2EC

### Leg Extension / Leg Curl

Based on an ergonomic design, the CL2EC will surprise you with how smooth every movement can be during workouts! Cushions with pop-pin adjustment meet customized needs to build the hamstring and quadriceps comfortably. The adjustable workout cam offers the alternative of leg extensions or curls in one seated position.

SPEC

VIDEO

## CL2SL

### Squat / Lunge

An oversized foot platform with ergonomically designed shoulder pads delivers stable and safe workouts for thighs, calves, and the glute. Angle adjustable movement arms of the CL2SL assist operators in a correct posture while executing the lunges or squats.

SPEC

VIDEO

## CL2AB

### Abdominal Curl / Back Extension

The CL2AB combines abdominal crunches and back extensions in one machine thanks to the linkage mechanism, and a driven cam allows operators consistently retain their force pending workout. The rotary foot brace with extended pop-pin adjustment can move rightward and leftward in a sitting posture to conveniently tone the straight and external abdominal oblique muscles.

SPEC

VIDEO

## CL2BT

### Biceps Curl / Triceps Extension

Machine CL2BT features ergonomically designed upholstery, chest support, and elbow pads that allow torso alignment for the best workout results. Non-slip checker foot plates for setting a stable and fixed seated position ensure safety during arm workouts. The driven cam delivers a balance of exercise force when performing biceps curls and triceps extensions.

SPEC

VIDEO

## CL2TH

### Outer / Inner Thigh

Start position adjustments can customize the range of muscle engagement that allows both workouts of thigh abductions and adductions in machine CL2TH. Shrouded towers and the seat are opposite, ensuring exercisers' privacy while training. Oversize pivoting thigh pads provide full support for the inside and outside of the legs.

SPEC

VIDEO

## CL2PC

### Leg Press / Calf Press

The movable black tread foot platform in ergonomics and a heavy gauge steel construction promote comfort, durability, and stabilization to press thighs and calves. Every installation site for cable pulleys of machine CL2PC will not obstruct the workout area, and lateral stability handgrips enable exercisers to maintain a correct posture while training.

SPEC

VIDEO

## CLDCC

### Dual Cable Column

Complete total body functional strength workouts with the CLDCC and maximize exercise results by utilizing various attachments. Pop-pin adjustments for weight stacks and pulleys accommodate the operator in different fitness levels and needs. Increase more workout variety with the CLDCC2 or accessories of the FTS360 series.

SPEC

VIDEO

## CLDCC2

### Multi Bar

Bilateral pivoting sticks are optimal attachments for dual cable machines to maximize workout efficiency and variations for the whole body.

### Optional Attachments

SPEC

## CLSCC

### Single Cable Column

The cable column machine CLSCC features a simple and versatile design that optimizes full-body workouts for individual training, and it's an optimal product for fitness studios or private gyms. Black storage hooks align with the horizontal post for easy access to workout accessories.

SPEC

VIDEO

## CLPR 78

### Power Rack 78

With workout safety in mind and to minimize the risk of being hurt, power racks CLPR78 and CLPR380 are equipped with movable protective posts on each side that protect exercisers against accidents and crush-related injuries. Barbell hooks are installed on the frames and are marked with numbers for exercise guidance.

SPEC

VIDEO

## CLPR 380

### Power Rack 380

With workout safety in mind and to minimize the risk of being hurt, power racks CLPR78 and CLPR380 are equipped with movable protective posts on each side that protect exercisers against accidents and crush-related injuries. Barbell hooks are installed on the frames and are marked with numbers for exercise guidance.

SPEC

VIDEO

## CLLA380S

### Lat Pulldown (Power Rack Attachment)

The CLPR380 is one of our top picks for power racks! It enables operators to perform various exercises safely and increase workout variations by adding fitness accessories, including Olympic barbells or the lat and row attachment CLLA380S.

SPEC

VIDEO

## CLFCB

### Core Bench

The CLFCB core bench, with its compact and sturdy construction, helps exercisers safely perform free-weight workouts, and it can combine with power racks for full-body training. Even during intense exercises, the oversize cushion provides comfortable support. Small transports wheels and an ergonomically designed handgrip are ideal attachments for carrying easily.

SPEC

## CLFSS

### Sissy Squat

The CLFSS is engineered with efficiency in mind. This innovative device targets your glutes, quads, and core, providing a comprehensive lower body workout without the need for extra weights. Plus, its lightweight construction ensures easy mobility whenever and wherever you need it.

SPEC

## CLDR60A

### Storage Rack

Organize your workout area to make it tidy, clean, and safer! Multi-function racks CLDR60A and CLDR60B provide ideal storage for dumbbells, kettlebells, and medicine balls that facilitate exercisers to discover fitness accessories at a glance and will have more time to aim at workouts!

SPEC

## CLDR60B

### Storage Rack

Organize your workout area to make it tidy, clean, and safer! Multi-function racks CLDR60A and CLDR60B provide ideal storage for dumbbells, kettlebells, and medicine balls that facilitate exercisers to discover fitness accessories at a glance and will have more time to aim at workouts!

SPEC

## CLMB

### Multi Bench

This multi-bench CLMB constitutes a fundamental component of the Club Line series, offering compatibility with plate-loaded attachments of the line.

SPEC

VIDEO

## CLPPD

### Plate Loaded Fly

Develop a brawny upper body and strengthen your pectoral muscles and front deltoids with the machine CLPPD, an optimal choice for chest fly exercises.

SPEC

VIDEO

## CLPLA

### Plate Loaded Lat Pulldown

Gradually improve your exercise capabilities and load weight plates onto the machine CLPLA to target workouts for your entire back, shoulders, and upper arms. You can perform a range of exercises while showcasing your creativity in training.

SPEC

VIDEO

## CLPBC

### Plate Loaded Biceps Curl

Enhance the well-defined appearance of your arms and refine muscle definition with the plate-loaded biceps curl machine CLPBC in your private space. The ladder-style stationary stopper, complemented by a manually adjustable backrest frame, ensure safety and proper positioning during workouts.

SPEC

VIDEO

## CLPLE

### Plate Loaded Leg Extension

Transform your workouts with a replaceable leg extension attachment for the multi-function bench, sculpting your hamstrings and quadriceps.

SPEC

VIDEO

## CLPLP

### Plate Loaded Leg Press

Strengthen your hips, calves, and quadriceps with leg press workouts; the CLPLP transfers exercise routines from the gym to home. The add-on weight horn #OA8 can withstand a heavier load to meet other exercise needs.

SPEC

VIDEO

## CLPDP

### Plate Loaded Dip

Distribute workload evenly across your arms with the ergonomically designed machine CLPDP for developing the triceps muscles through dip movements.

SPEC

VIDEO

## CLPMP

### Plate Loaded Multi Press

Build a robust upper body, sturdy hips, and powerful legs with our latest innovation: the multi-press station paired with a weight bench! Featuring press arms in a multi-position design and a bench backrest incorporating a slide-adjustment mechanism, this product enhances workout versatility while ensuring proper training postures to maximize muscle engagement.

SPEC

## CLPFID

### Plate Loaded Multi Bench

Build a robust upper body, sturdy hips, and powerful legs with our latest innovation: the multi-press station paired with a weight bench! Featuring press arms in a multi-position design and a bench backrest incorporating a slide-adjustment mechanism, this product enhances workout versatility while ensuring proper training postures to maximize muscle engagement. The bench can also be used independently.

SPEC

## CLPM1

### Plate Loaded Multi Gym 1

Explore a novel approach to enhance your workout routines and strengthen your entire body with the multi-trainer CLPM1, which empowers you to perform a diverse range of exercises, all within one space-saving machine.

SPEC

## CLPM3

### Plate Loaded Multi Gym 3

Whether alone or with friends, engage muscle groups throughout your body via the multi-trainer CLMP3, which offers a range of enjoyable, efficient, and exciting workouts to meet your needs!
