

Indoor Cycling Bike - CS2WA

- This bike is designed for commercial/ home use with ergonomically designed handlebar, adjustable seat and high-quality inertia wheel.
- It is distinct from other indoor cycling bikes with its resistance adjustment feedback system which can show resistance and producing power clearly.

PSB10-USB (Receiver) & PHRC (Data Collecting App)
Cardio workout assistant, capturing and analyzing data to assess your physical function and precisely track your training progress.
PSB10 and PHRC are the best set for classes and group training! Each receiver can collect up to 49 bikes at once.

(Screenshot of PHRC app on PC for exercising results)
