

## Clubline Series

The Steelflex Clubline Series helps operators of a wide range of facilities from hotels to community centres to optimize the utility of floor size within the budget.

The pleasant and inviting design creates the approachable environment in the facilities while the ease of use accommodates wide range of exercisers to have the right fit comfortably.

### CL2CR

#### Chest Press / Back Row

The Clubline Chest Press / Back Row is ideal equipment for upperbody strength training with just a single knob adjustment of arm position.

The adjustable back pad and ratcheting seat welcoming all sizes exercisers for the comfortable high performance.

The multiple grip angles bring a safe environment for more possible angles muscle activation with less joint irritation.
